HOW TO PLAY TOGETHER

Capuchin: Finger Numbers

A picture guide to playing together.

Watch, tap a finger, count what is up, then tap the green check. Every match earns a star.

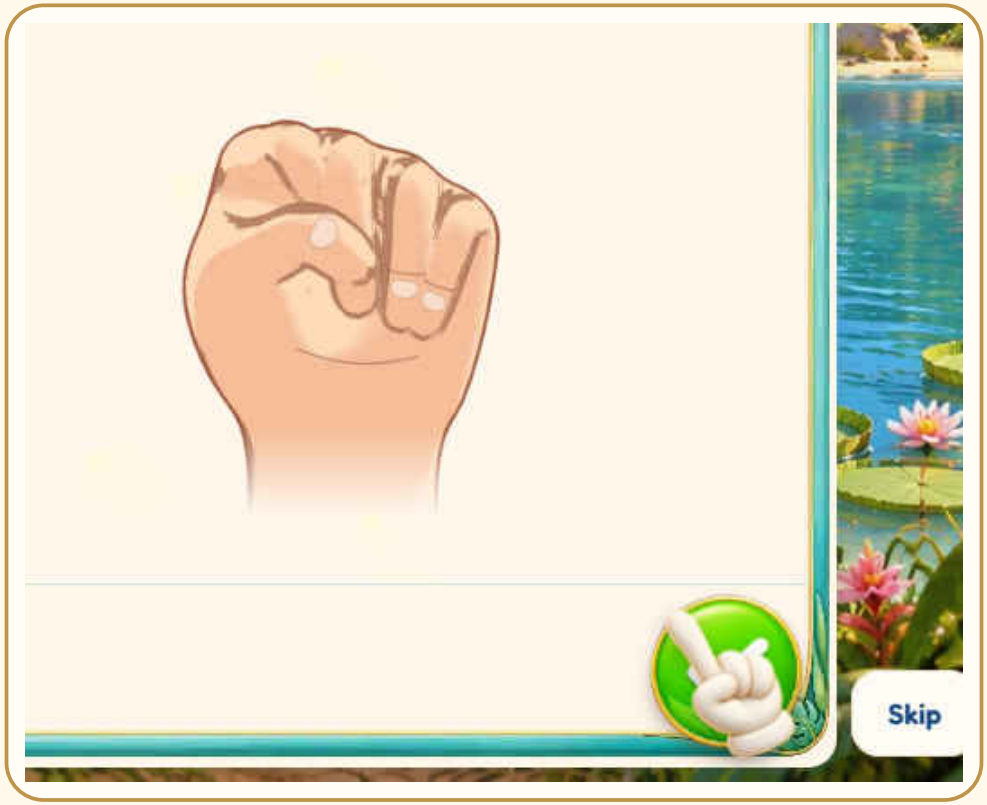
AGES 3-6

STEP 1

Watch first.

The pointing hand shows where to touch. Watch the green check, too.

Tap the finger



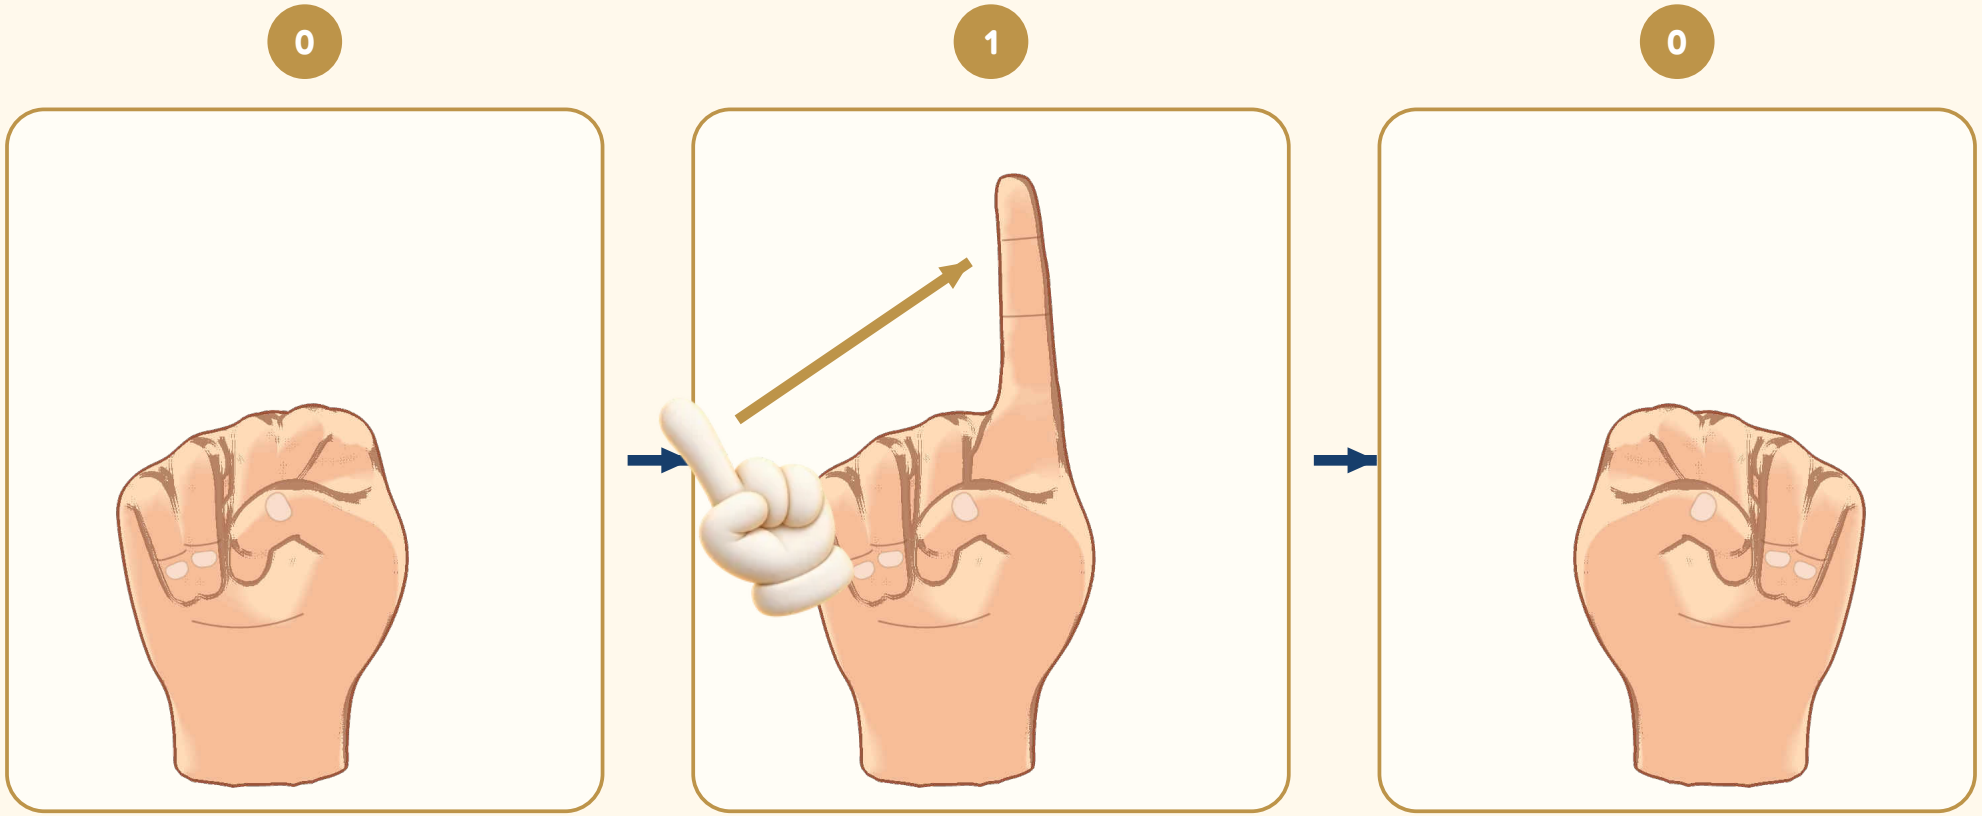
Tap the green check

For grown-ups: These two turns are practice. They do not earn a star.

STEP 2

Tap a finger.

Tap to open a finger. Tap it again to fold it.

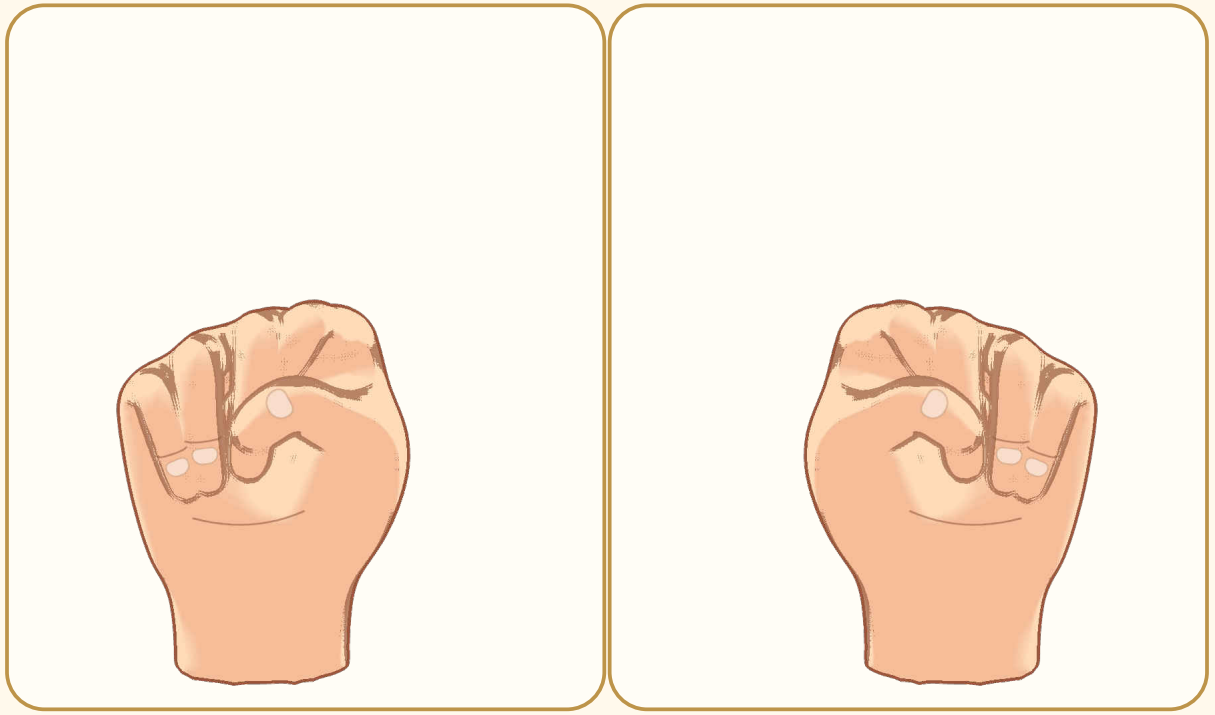


For grown-ups: Dragging a fingertip up or down works too.

Closed means zero.

No fingers are up. That shows zero.

Both hands can stay closed.



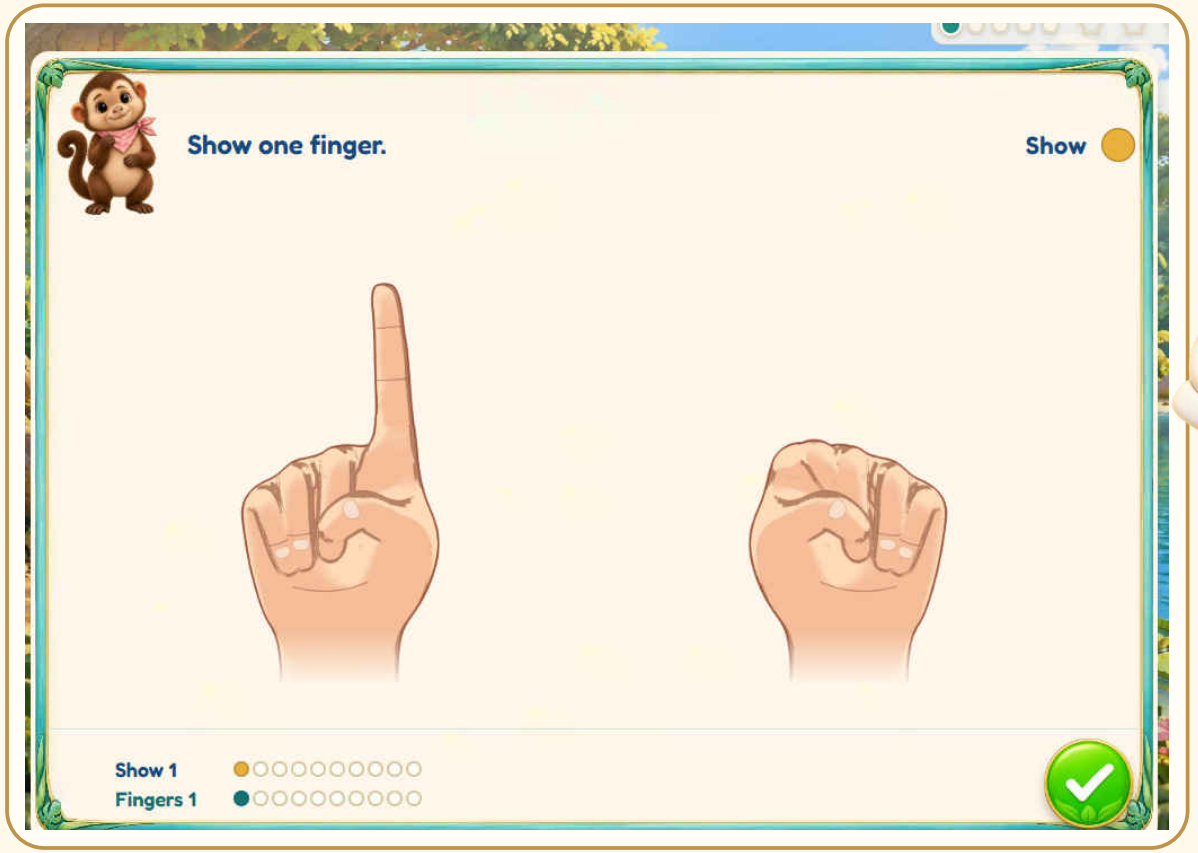
0

Zero fingers up.

For grown-ups: Zero is a full answer here, not a blank.

Look. Count. Check.

Match the amount. When you are ready, tap the green check.



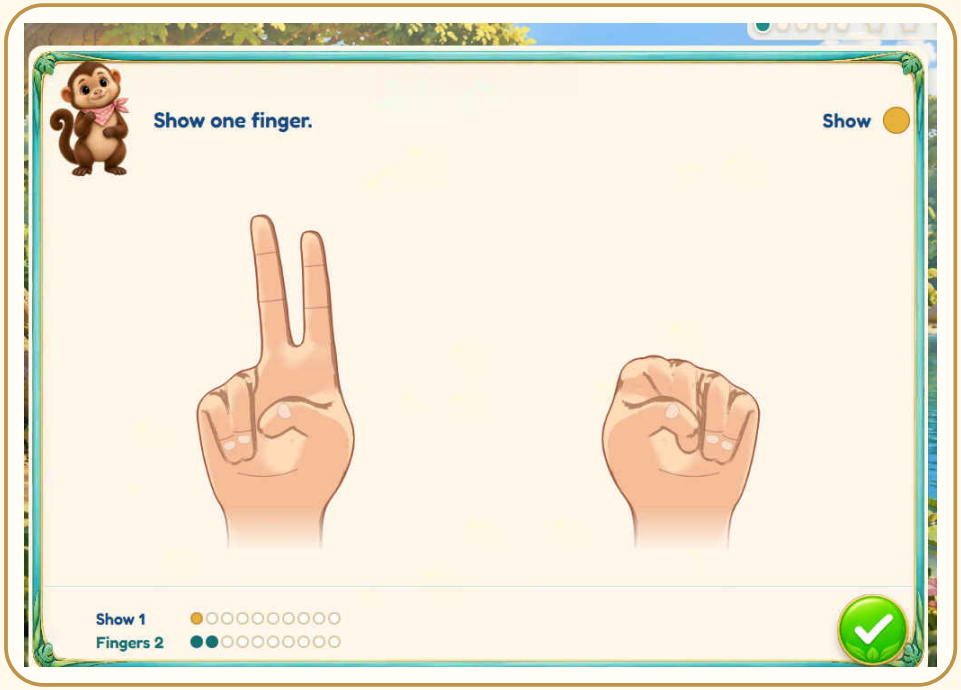
Tap here when you are ready.

One finger up, and the task asks for 1.

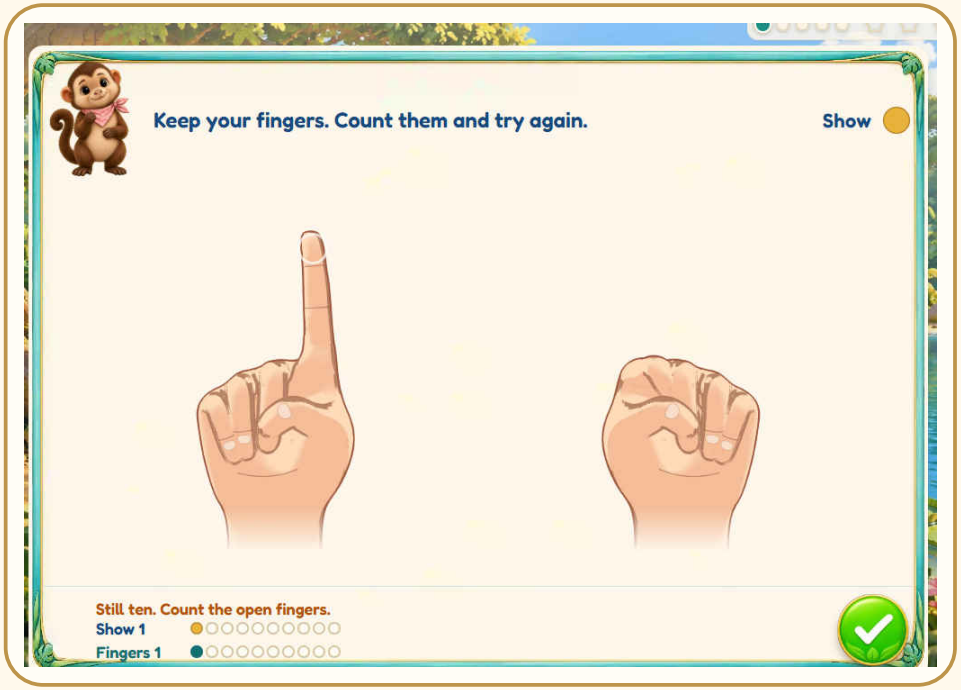
For grown-ups: Count each raised finger once.

Try again.

Keep your fingers. Change one, count again, and check.



2 up, not 1 yet



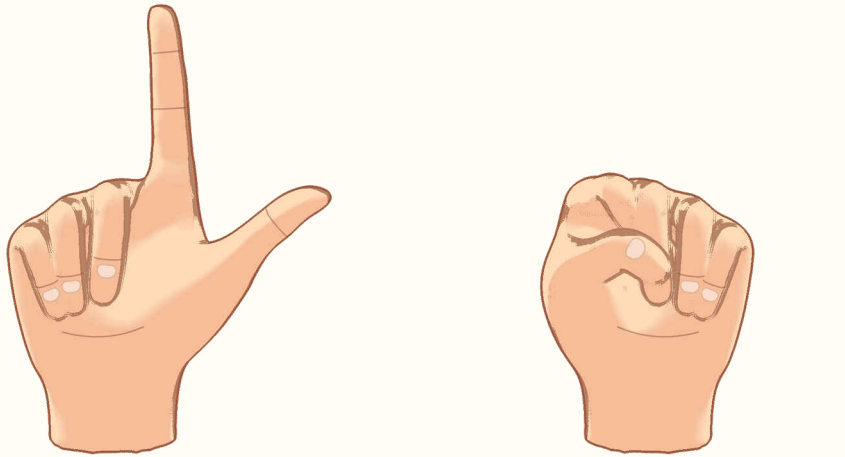
1 up - ready to check

For grown-ups: The fingers stay after a miss, so your child can change one and check again.

LEVEL 3

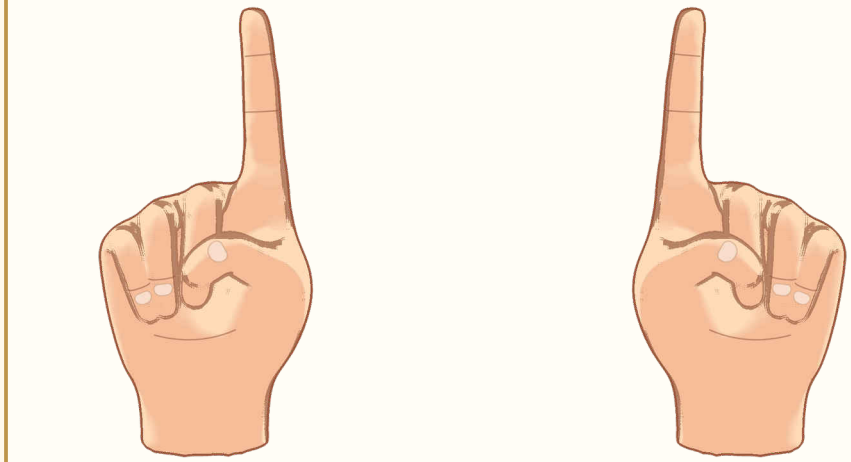
Same amount, new fingers.

Fold one. Open another. Count again.



2

One way



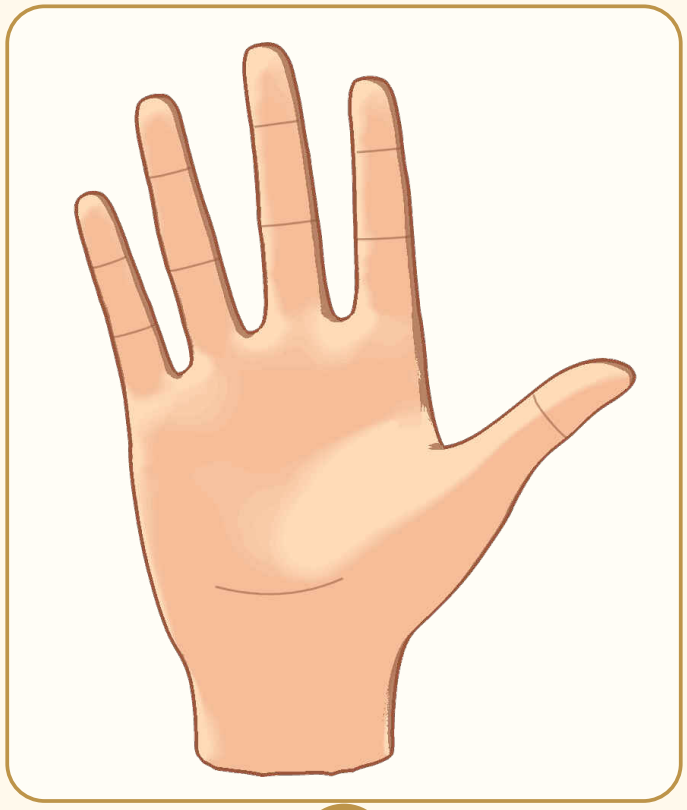
2

A new way

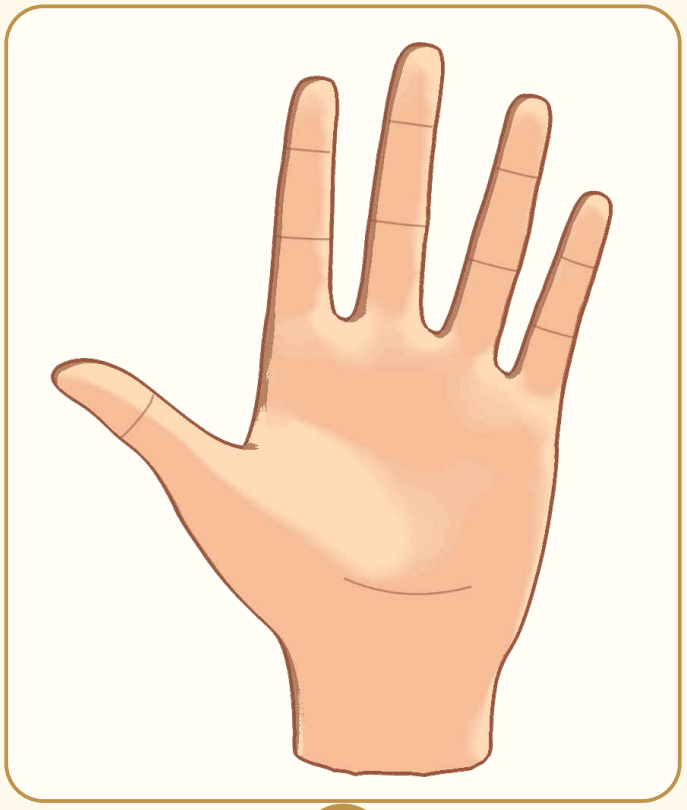
For grown-ups: Level 3 shows one pattern and asks for the same amount in a new way.

Two hands, ten fingers.

Five on each hand makes ten fingers up.



5

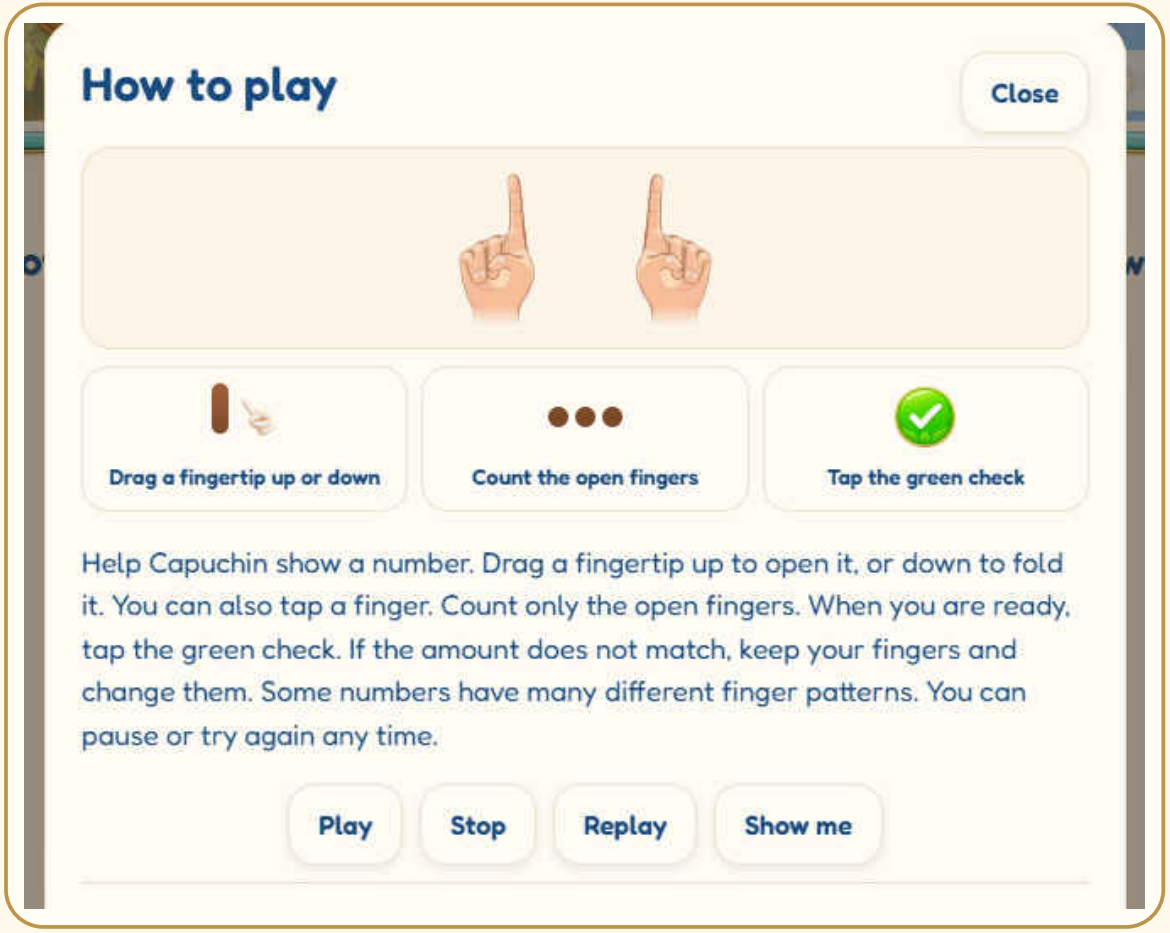


5

For grown-ups: Any arrangement that shows ten is accepted.

Help is close.

Tap the question mark for help. Pause when you need a break.



Open help

Take a break

For grown-ups: Choose Show me to watch again. Your chosen fingers and task are kept.

A star for each match.

Every matching answer earns a star. Tap. Count. Check.

One gold star appears in the top row.

For grown-ups: Four stars fill one level.
