

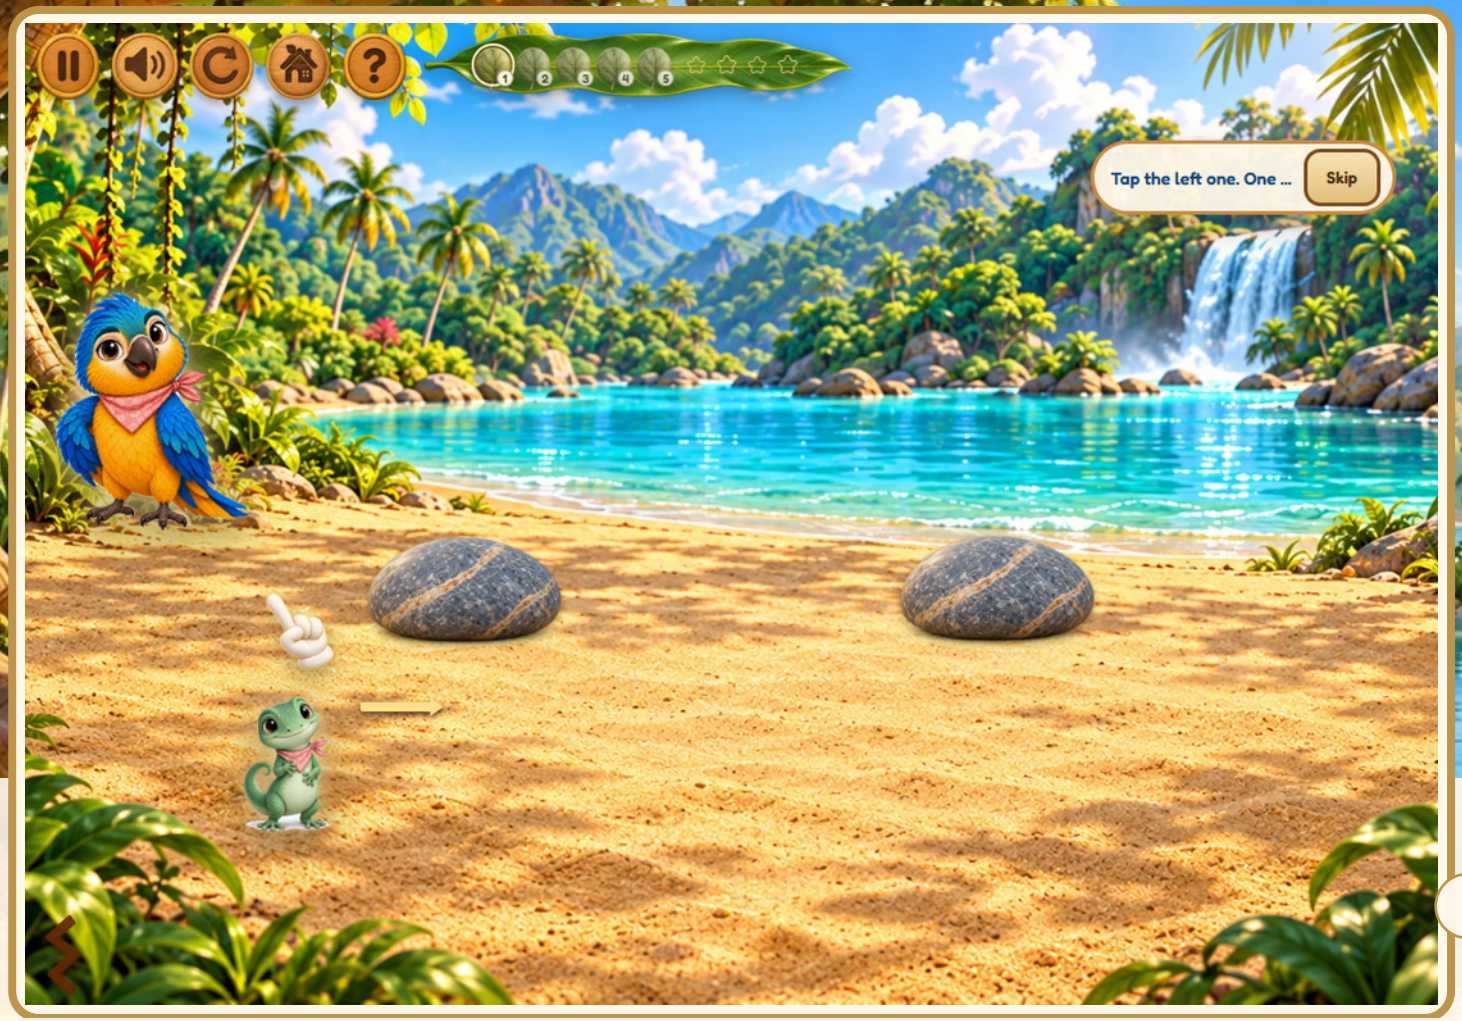
Gecko: Count from Either End

A picture guide

Tap. Count. Turn. Count again.

Meet Gecko and Aro.

Gecko counts. Aro shows you how.



2-pebble demo

Watch the hand.

Tap Play. Watch Aro's short demo.

Actual play

Tap each pebble once.

Start on the left. Wait for each number, then tap the next glowing pebble.

Last tap: three

Start again: one

Tap the last pebble again.

Stay at this end. Start the new count at one.

Count back: one, two, three.

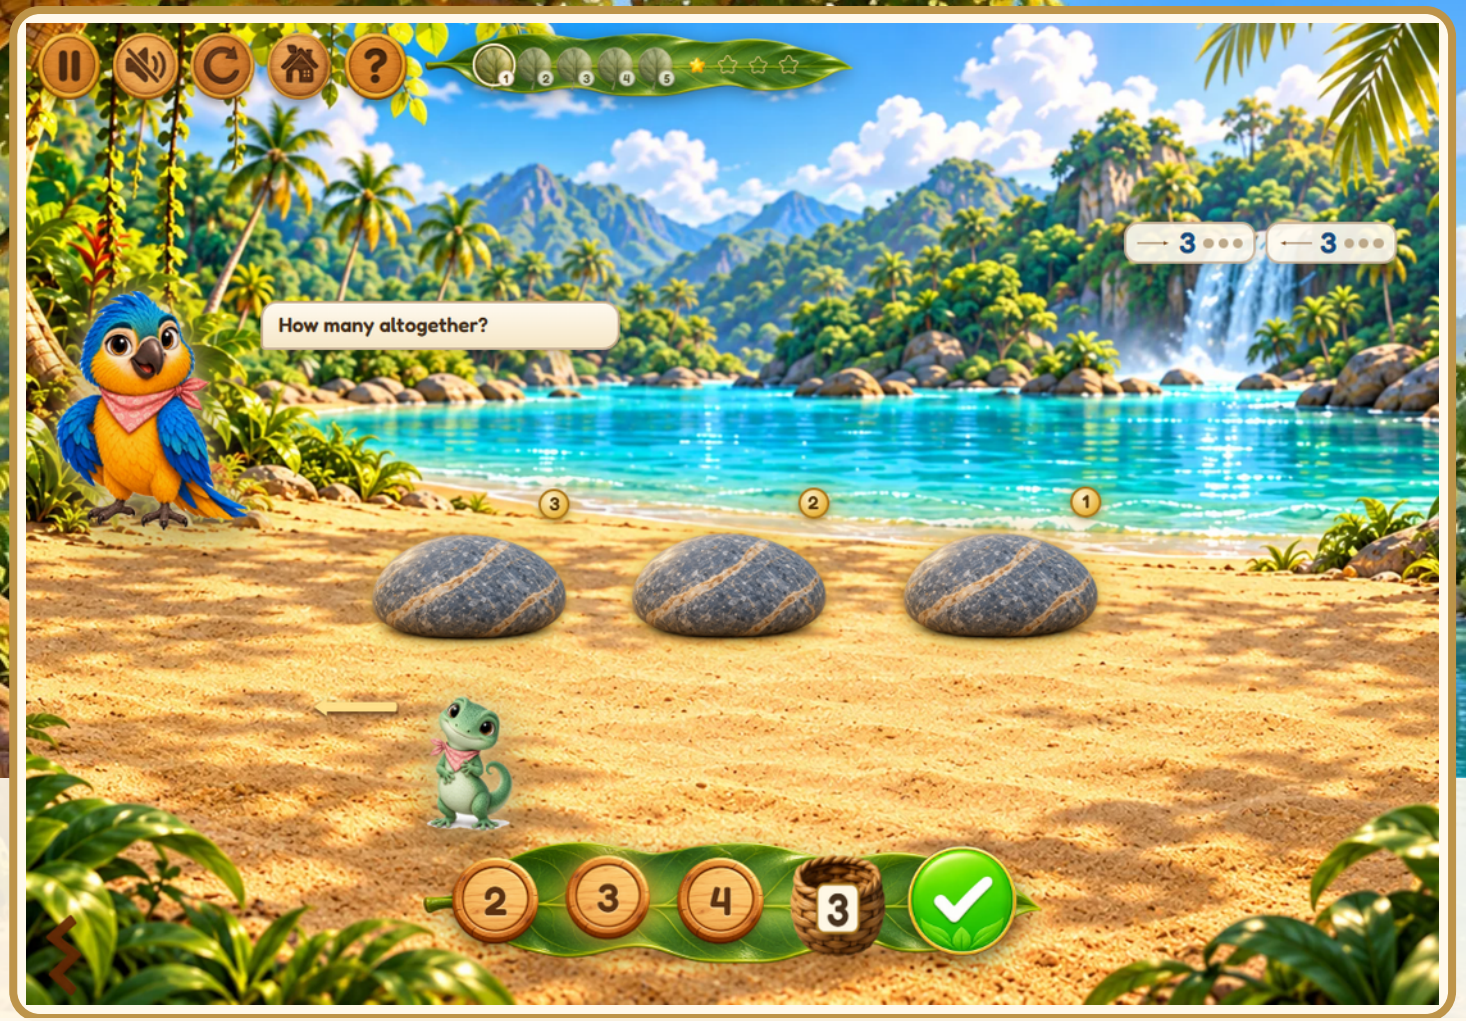
The pebbles stay in the same places.

Before

After

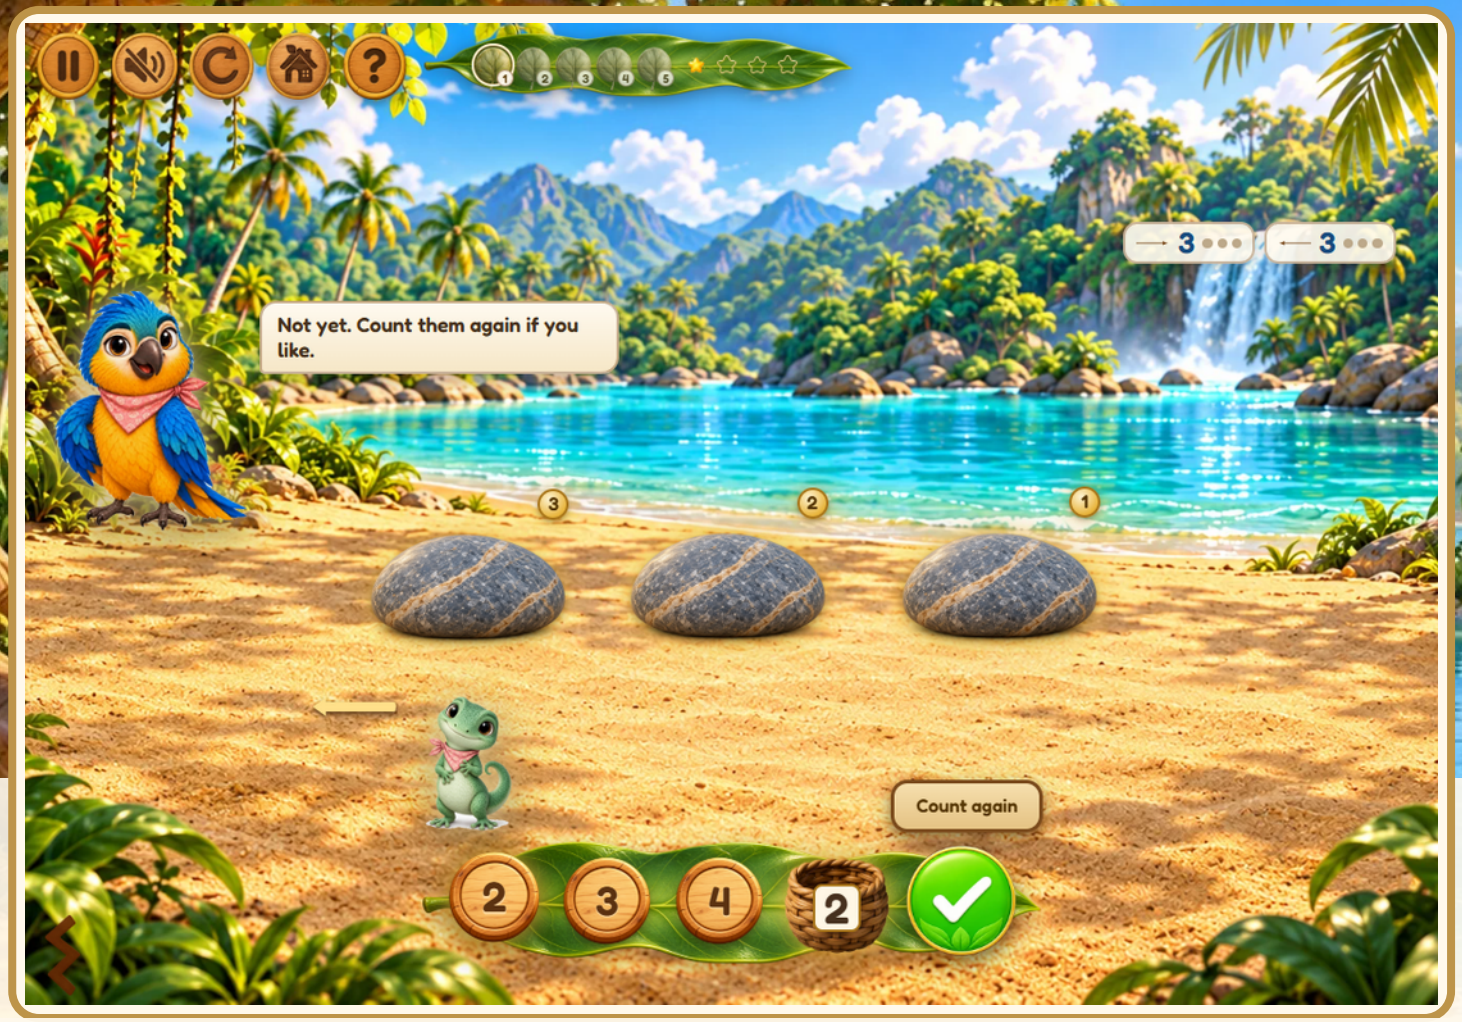
Choose how many.

Drag a number card into the basket. You can tap the card instead.



Tap the green check.

Choose first. Then check your number.



Count again

Count again

Change your number

2 3 4 2

You can try again.

Change your number. Or tap Count again to count both ways.

A star for your count.

Four stars finish a level. There are five levels.

Need a hand?

Tap the question mark for help. You can watch the hand again.
