For Grown-Ups: Answers & Little Hints

Aro: Sound Parcel · worksheet set v1.0.0

No need to print this page. Take a look if you would like to check an answer or help your child get started. Choose a card that fits your child's current skills; the ages are a guide.

Make the slow taps described in the card's SAY panel. If your child asks to hear them again, repeat the same number of taps. One sound stands for one leaf.

L1 · AGE 2.5-3 · Listen and point

Answer: Two leaves: the middle field with two dots, after two taps.

Little hint: Touch a finger for each tap. Which dots match your fingers?

L2 · AGE 4 · Listen and finish the parcel

Answer: Three more leaves: the right field with three dots.

Why: Four taps call for four leaves. One leaf is already in the parcel.

Little hint: Touch the leaf already there. Which taps still need a leaf?

L3 · AGE 5 · Leaves count

Answer: Two more leaves: the left field with two dots.

Why: The parcel has three leaves and two feathers. Only its leaves stand for sounds; five taps call for five leaves.

Little hint: Look for each broad leaf and its stem. Which objects in the parcel are feathers?

L4 · AGES 6-7 · Task 1: Finish A

Answer: Add three leaves: the middle field in the upper row.

Why: Five taps call for five leaves. Parcel A starts with two.

Little hint: Match A's leaves to the first taps. Which taps still need a leaf?

L4 · AGES 6-7 · Task 2: Compare before adding

Answer: B has two more leaves: the right field in the lower row.

Why: Compare the unchanged picture: A has two leaves and B has four. Do not use the leaves imagined in task 1.

Little hint: Pair a leaf in A with a leaf in B. Look for leaves without a partner.

Pointing or answering aloud can show the same math when marking is difficult. Optional coloring has no right color. For visual support, make each tap visible; that practices matching visible events rather than hearing alone.
