A Leaf for Everyone

MATCH ONE TO ONE

Help Capybara and Gecko get ready for a river picnic. Read together, touch each friend, and give everyone just one leaf.

1

RIVER PICNIC

By the river, warm and bright,
Capybara sets things right.
Gecko comes to share the day.
Green leaf plates are on their way.

2

TWO FRIENDS, THREE LEAVES

Two friends waiting by the tree.
Three green leaves—one, two, three.
Touch each friend and count once more:
Two friends sitting by the shore.

3

COUNT AND COMPARE

Three is more than two, you see.
One for you and one for me.
Each friend needs a single plate.
Let the extra green leaf wait.

4

ONE FOR EACH FRIEND

Give each friend one leaf today.
Set each leaf the gentle way.
One leaf each, and one to spare.
Let that extra wait right there.

5

ONE EACH, ONE SPARE

Two friends ready in the sun.
Check: each friend has only one.
By the basket, one can stay.
Tap green OK. We're set to play.

The ready picnic: one leaf each, one spare.

Point to each plate, then softly say:
"One leaf each—we're set to play!"

ARO'S PICNIC THOUGHT

Every friend needs one leaf. An extra leaf by the basket is fine.

Aro says

Touch each friend.
Give one leaf.
Check each place.
