# Two Here, Two There

**LOOK · MATCH · CHECK**

Join Capybara by the river. Spot matching groups, even when the flowers sit in different places.

## 1 BY THE RIVER

Beside the river, warm and blue,
Capybara looks with you.
Pink flowers float in leafy green.
Let's find a match within the scene.

## 2 TWO AND TWO

Two pink flowers, side by side,
sit where gentle ripples glide.
In the other frame, just two,
up and down—a different view.

## 3 A DIFFERENT WAY

Look at each small group and say,
"Both have two, a different way."
Side by side or up and down,
two stay two when turned around.

## 4 CHOOSE AND CHECK

Choose the picture. Slide it in;
matching flowers make you grin.
Or just tap to place your pick;
then press green—a gentle click.

## 5 A MATCH

Two in this frame, two next door.
Neither picture has one more.
Different places, same small crew.
Capybara smiles at you.

Point to each whole group and say:
"Same small number, new display!"

**ORI'S THOUGHT**

**Moving the flowers changes their places, not how many there are.**

**Play together**

**Look. Match. Check.**
