One More Makes Ten

Bundle of Ten

wondermaths.app

COUNT · ADD ONE · TIE TEN Read together and follow each stem. Nine wait on the mat; one more will join them.

1 ON THE MAT

Under the warm savanna sun,
Rhino gathers, one by one.
A wooden mat is ready here.
Let's bring the waiting stems in near.

2 NINE AND ONE

Nine lie on the mat today;
One waits near, not far away.
Nine upon the mat we see,
One more waits for you and me.

3 COUNT WITH CARE

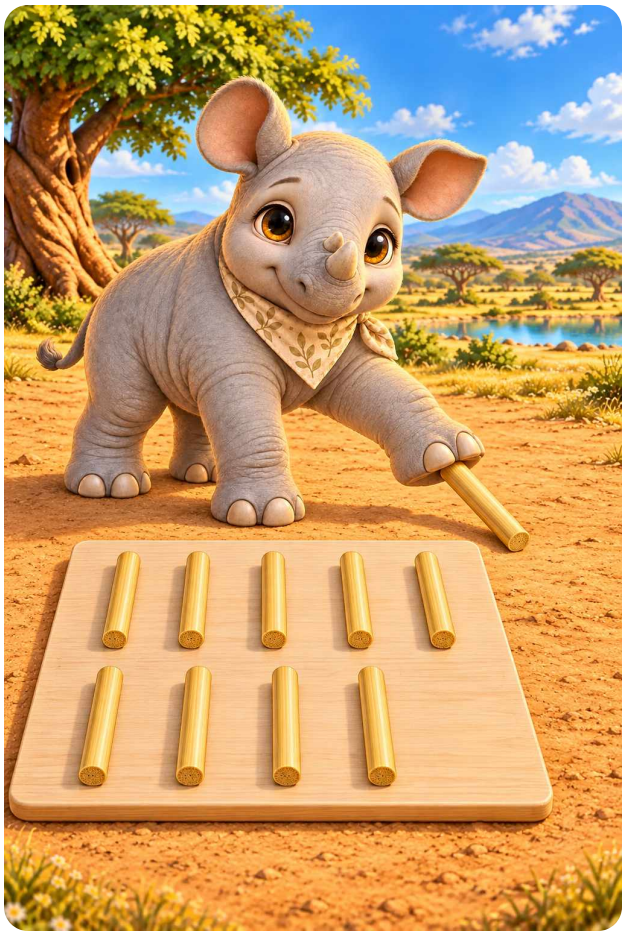

Touch each stem and count with care;
Count the nine already there.
Count the waiting one as well;
Ten altogether, we can tell.

4 MOVE IT IN

Move that one to join the nine;
Ten are here, and all is fine.
Nine and one have joined today;
None were lost along the way.

5 ONE BUNDLE

Wrap the cord around the ten;
Keep each stem inside, and then:
One whole bundle, snug and neat,
Ten small stems make it complete.

Touch each stem, then tie the ten; loosen up and count again.

ORI'S THOUGHT

A bundle holds ten stems. Tying changes their arrangement, not how many there are.

Ori says

Move. Count. Tie.
