Sloth: Ten and Some More

A picture guide to playing together.

Meet Sloth and Aro

Sloth

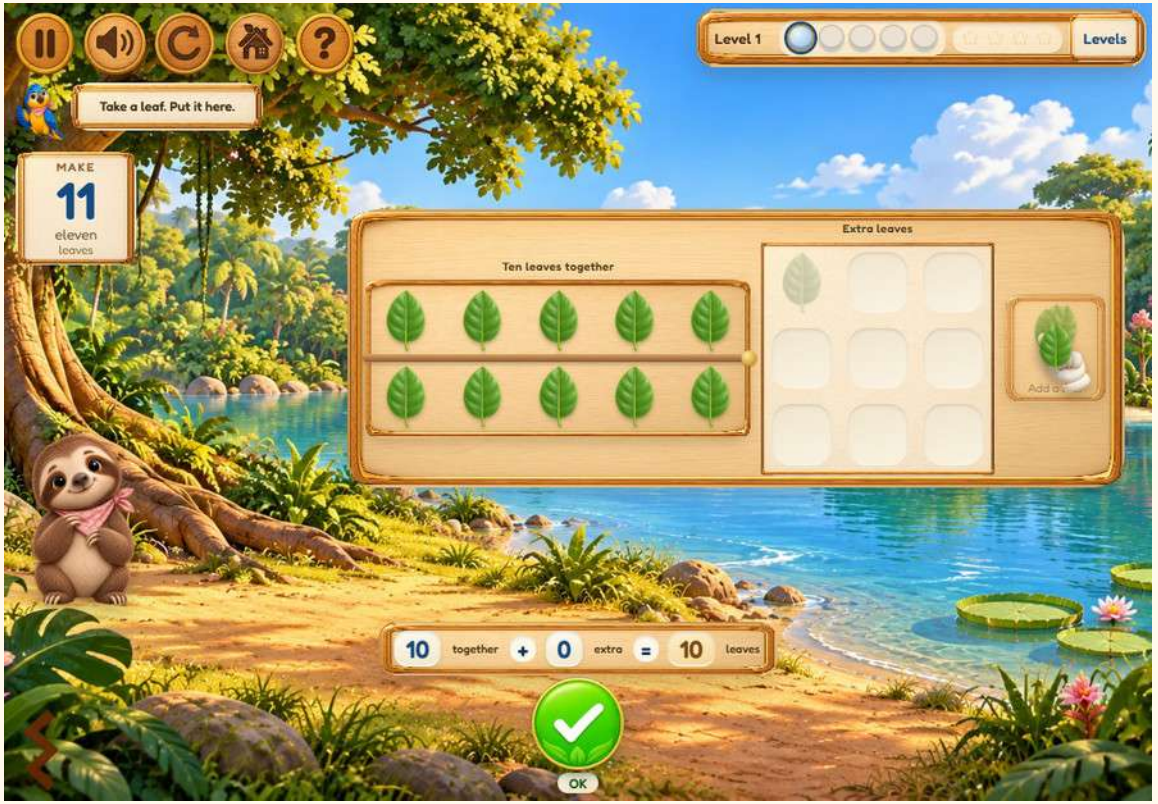

Aro

Sloth needs leaves. Aro is your river guide.

Watch the hand

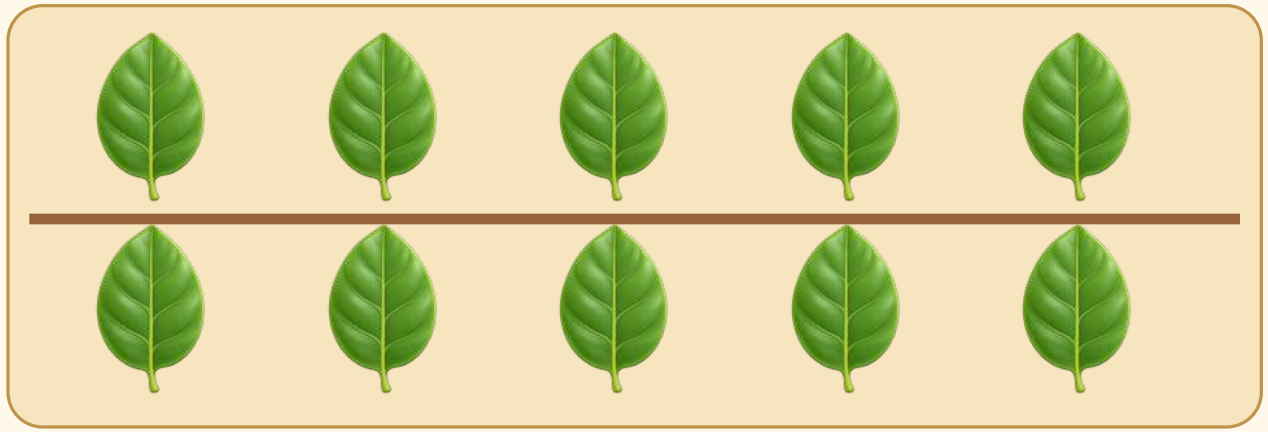

Tap Play. Watch one leaf move. Then it is your turn.

Ten stay together

$$5 + 5 = 10$$

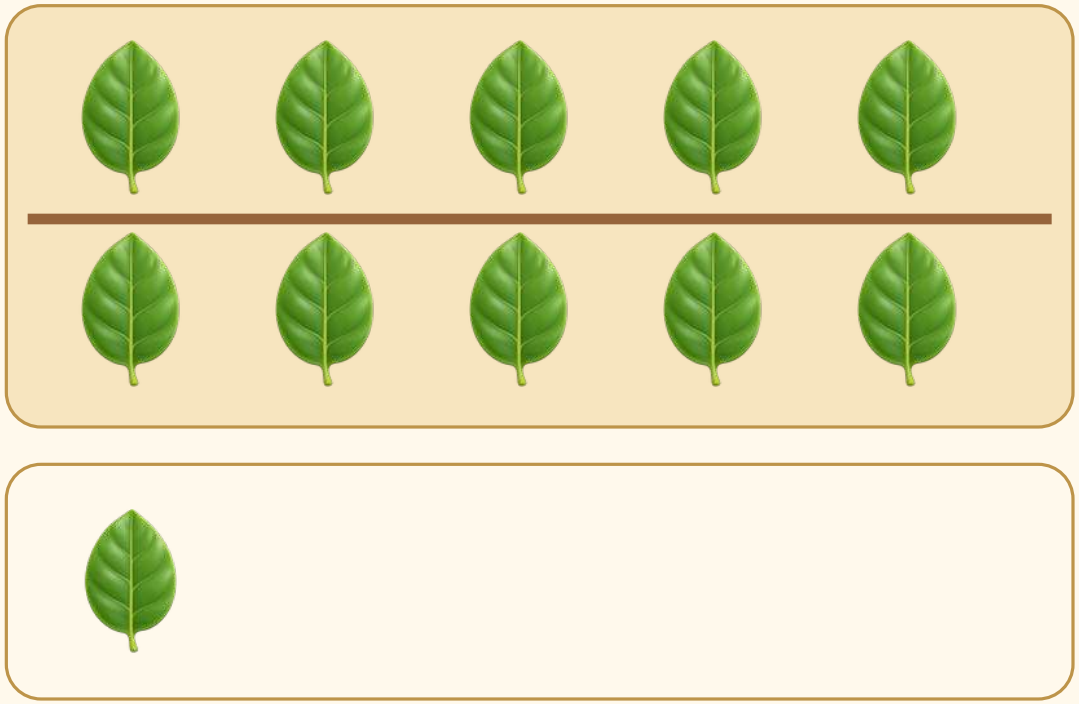

Two rows of five make ten. These leaves stay put.

Add one leaf

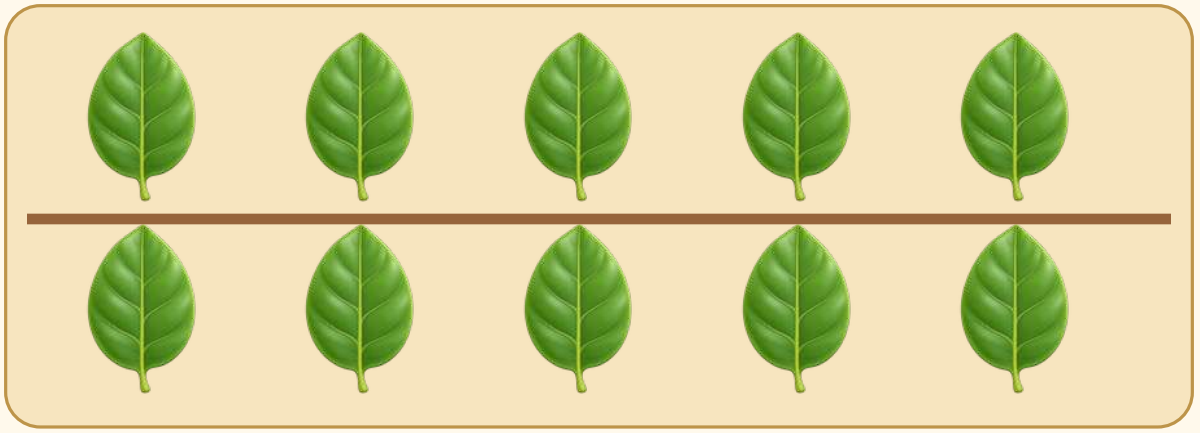

Tap once

Tap the leaf pile. One leaf fills a shape. You may drag it there, too.

Tap the green OK

$$10 + 1 = 11$$

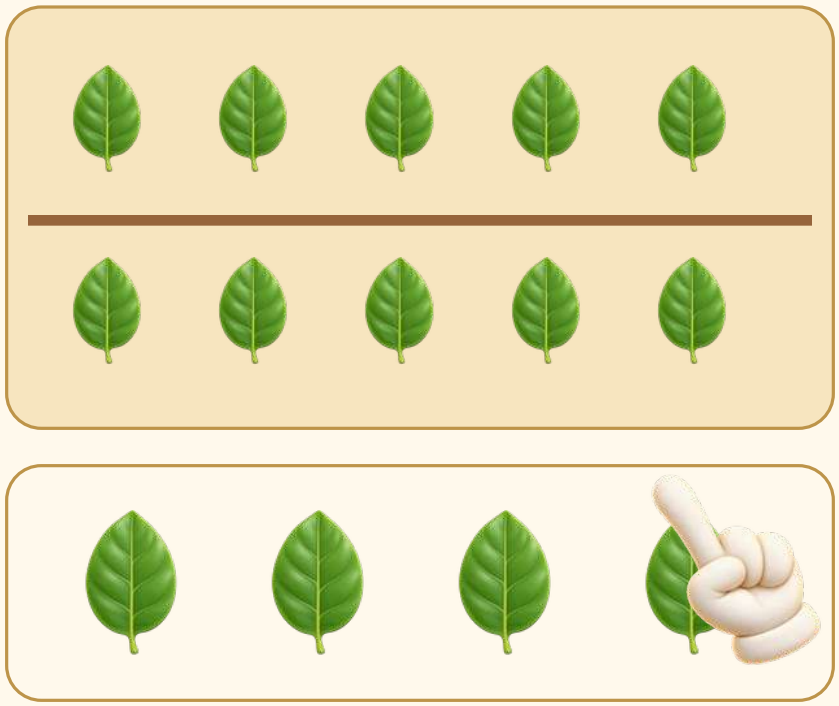

Then OK

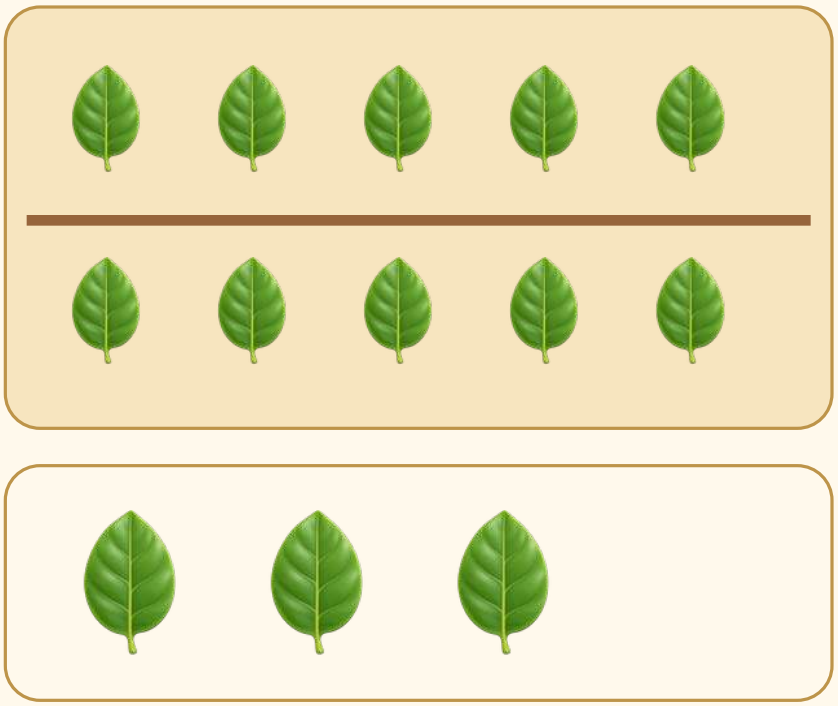

Ten and one make eleven. Tap OK when your leaves match.

Take one back

10 + 4 = 14

10 + 3 = 13

Four extras make fourteen. Sloth needs thirteen. Tap an extra leaf to return it.

A little oops is okay

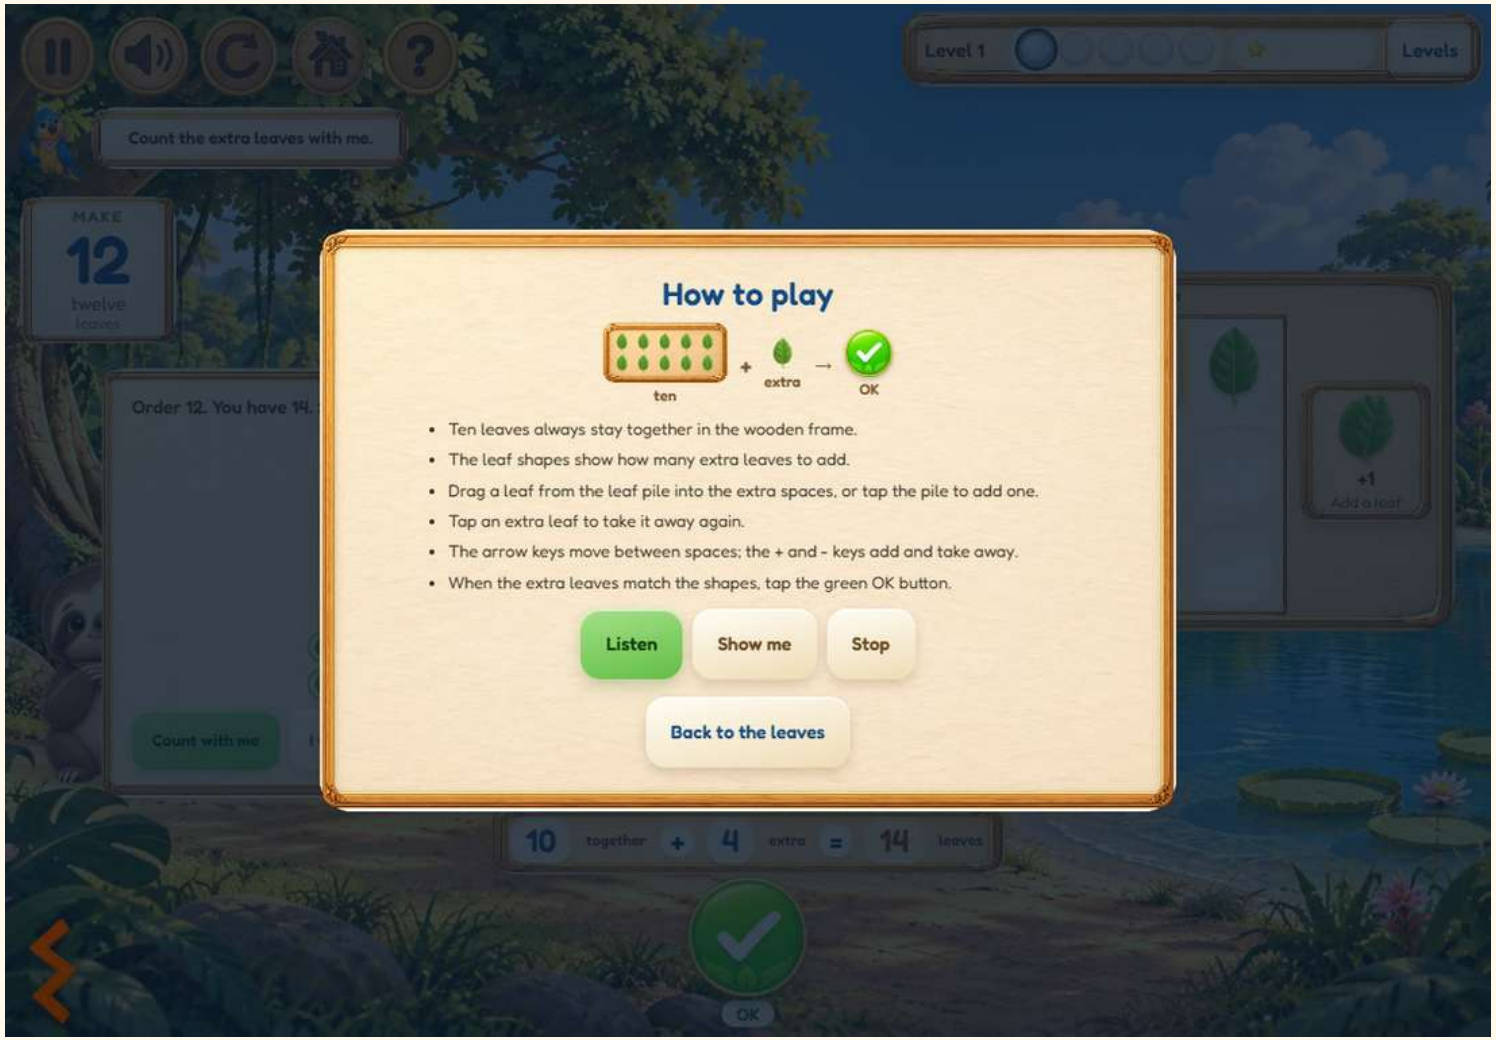

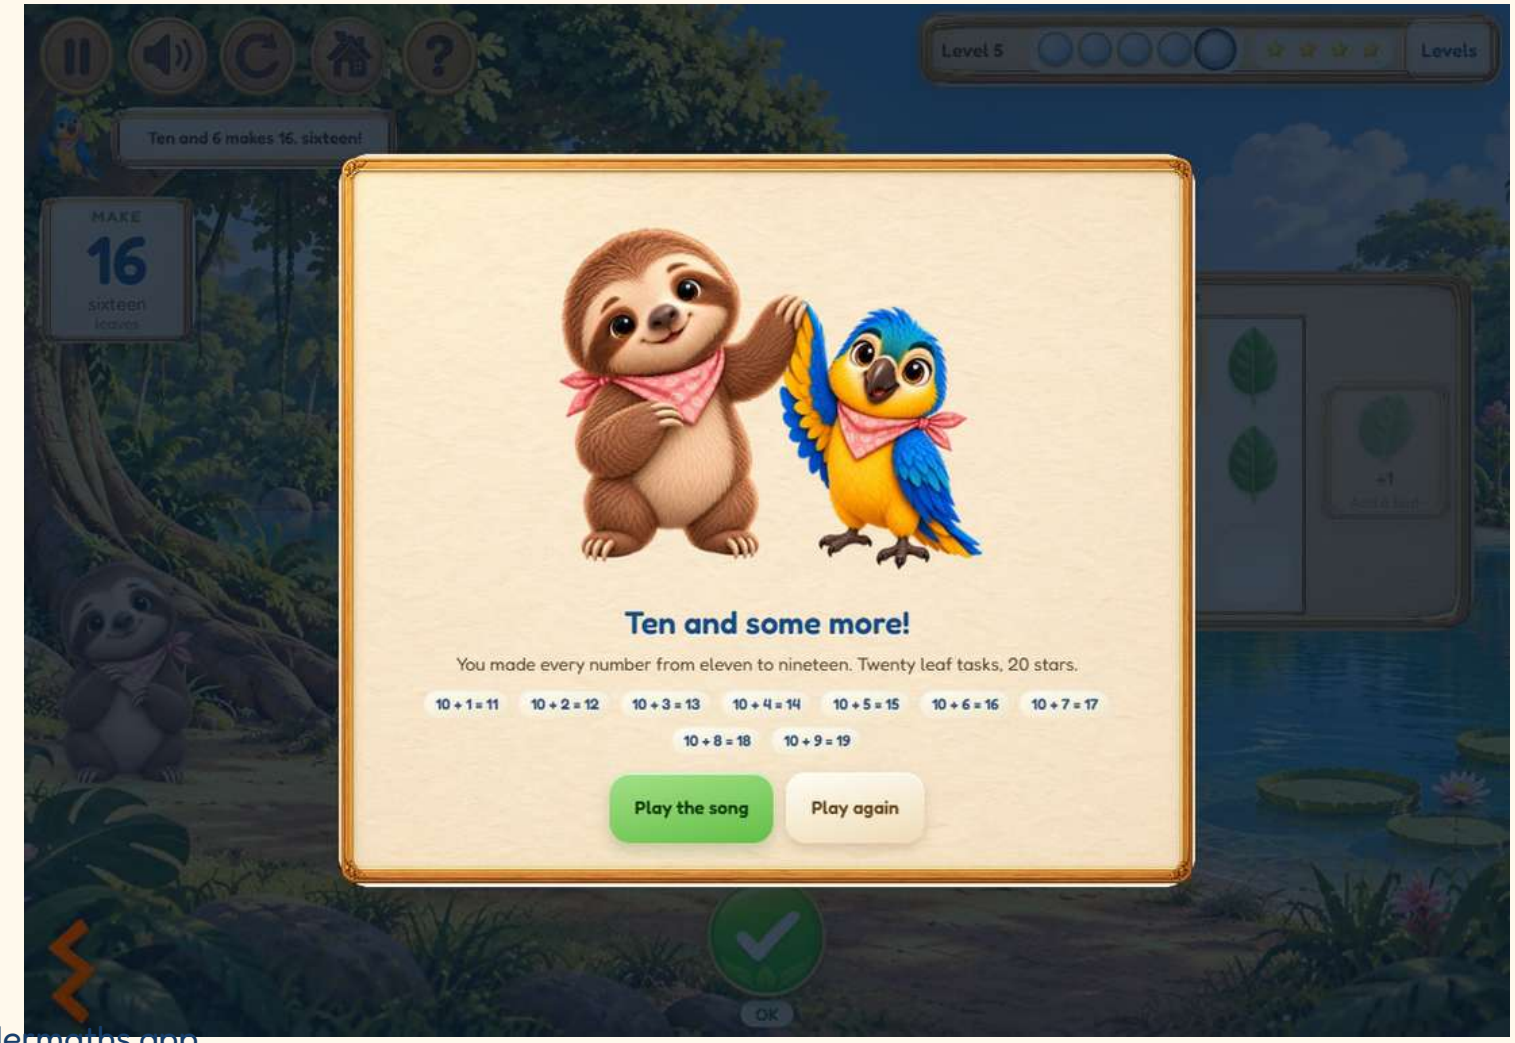

Your leaves stay. Look, change an extra leaf, and try OK again.

Help is here

Tap ? for help. Watch the hand again. Pause whenever you want.

You did it together

Visit wondermaths.app

Five levels, four leaf tasks in each. At the end, you can play the song.
